    - **Web Technologies**: RESTful Web Services, HTML, JavaScript.
    - **Databases**: Oracle (10g, 11g, 19c).
    - **Servers**: WebLogic, Tomcat.
    - **Tools**: Maven, Jenkins, Log4j, JUnit, SoapUI, Splunk.
    - **IDEs**: Eclipse, IntelliJ IDEA, STS.
    - **Design Patterns**: MVC, DAO, Singleton, Factory.

PROFESSIONAL EXPERIENCE

Capgemini Private Limited, Chennai

Team Lead | *Jan 2020 – Present*

- Lead a team of developers in the **design, development**, and **deployment** of enterprise-level applications using **Spring Boot** and **Microservices**.
- Responsible for **sprint planning**, **backlog grooming**, and **resource management** for smooth execution of development cycles.
- Coordinated with **product owners** and **stakeholders** to gather requirements and translate them into technical solutions.
- Managed production issues and implemented robust solutions to ensure application stability.

Mphasis Private Limited, Chennai

Senior Software Engineer | *May 2018 – Jan 2020*

- Spearheaded the development of **e-commerce solutions** for **FedEx**, integrating order processing and delivery systems with external APIs and payment gateways.
- Developed business logic for **document management**, **price calculation**, and **order processing** in a high-performance, scalable environment.
- Played a key role in **code reviews**, ensuring adherence to best practices and enhancing code quality.

L&T InfoTech, Chennai

Software Engineer | *Oct 2014 – May 2018*

- Contributed to the development of a **global OTC derivatives platform** for **CitiBank**, automating trade capture, confirmations, settlements, and regulatory reporting.
- Developed **RESTful web services** to integrate disparate systems and enhance workflow efficiency.
- Optimized document generation processes, reducing turnaround time and improving operational transparency.

Arminus Software Solutions, Chennai

Software Engineer | *Dec 2013 – Oct 2014*

- Developed key modules in the **Citi KYC platform**, ensuring global compliance with anti-money laundering policies.
- Integrated **real-time data processing** solutions with various internal systems, enhancing the effectiveness of KYC assessments.
- Worked extensively with **Oracle 10g**, **Spring MVC**, and **JPA** for backend development.

CERTIFICATIONS

- **Brain Bench Certified for Java 1.17** with **85%**.

PROJECT EXPERIENCE

NG Straight 2Bank

Client: Standard Chartered Bank (SCB)
Role: Team Lead
Technologies: **Spring Boot**, **Microservices**, **Spring Data JPA**, **RESTful Web Services**, **Oracle 19c**
Duration: Feb 2020 – Present

- Developed and deployed a highly scalable internet banking platform with **real-time data integration**.
- Led **sprint planning**, **requirement gathering**, and coordinated **development** and **deployment** activities.
- Integrated external data sources using **Solace Queue** for seamless data transfer between upstream and downstream systems.

FedEx OTPF

Client: FedEx
Role: Senior Developer
Technologies: **Spring Boot**, **Spring Data JPA**, **Microservices**, **RESTful Web Services**, **Oracle 11g**
Duration: May 2018 – Jan 2020

- Developed and implemented core business logic for **order processing**, **pricing**, and **shipment tracking** in a high-traffic e-commerce environment.
- Optimized **payment processing** and **delivery rate calculation**, resulting in improved customer experience and faster processing times.
- Worked on **REST API** development and integration with FedEx systems for order fulfillment.

Confirmation Workflow Manager (CWM)

Client: Citibank
Role: Senior Developer
Technologies: **Spring MVC**, **Hibernate**, **RESTful Web Services**, **Oracle 10g**
Duration: Feb 2017 – May 2018

- Developed a **global confirmation processing platform** for **OTC derivatives**, enabling real-time trade confirmation and document management.
- Created integration solutions for **real-time document processing**, including **barcode generation** and **outbound dispatch** to external parties.

Citi KYC

Client: Citibank
Role: Developer
Technologies: **Spring MVC**, **JPA**, **RESTful Web Services**, **Oracle 10g**
Duration: Oct 2014 – Feb 2017

- Contributed to the development of **Citi's global KYC platform**, ensuring compliance with financial regulations and automating customer risk assessments.
- Integrated multiple external systems such as **GCAR** and **MANTAS** for **real-time** and **batch data processing**.

ATT Shop and ByFlow WireLine

Client: AT&T
Role: Developer
Technologies: **Spring**, **Hibernate**, **Oracle 10g**
Duration: Dec 2013 – Oct 2014

- Developed key functionalities in the **Uverse module** of a telecom service platform, improving the customer experience for ordering **fiber-optic** services.
- Implemented **UI components** using **AngularJS** and developed **RESTful services** for product availability and order management.

EDUCATION

Master's in computer application (MCA) from Utkal university, Bhubaneswar, Odisha
